

FIRM PROFILE

Founded in 1977, Project Control relieves Owners of the demanding management responsibilities and technical oversight associated with capital projects. As a pioneer and innovator in Project Management and Owner's Representative services, we enable Owners to proceed with business as usual, comfortable in the knowledge that their projects are defined, designed, and constructed to fulfill their building needs. Our core values of community, integrity, passion, quality, and growth define our firm and our commitment to our clients.

“

(Project Control) had the staff and expertise to identify and address the many risks we knew stood before us.

Russ Wallace

Former Executive Director, Facilities Planning and Construction, Texas A&M University System
